

**Project WET and the DWR
Climate Change team present**

**Understanding Climate
Change in the Tulare Basin
Watershed**

Climate change is having a profound impact on California water resources, as evidenced by changes in snowpack, sea level and river flows. These changes are expected to continue in the future and more of our precipitation will likely fall as rain instead of snow. Join the Department of Water Resources (DWR) Climate Change Team for a day learning about the basics of climate science, how DWR is addressing climate change impacts on California's water supply and how the interdisciplinary activities of Project WET can help you integrate climate science knowledge and skill back in the classroom!

Project WET (**Water Education for Teachers**) activities are an effective tool for integrating student knowledge of water resource concepts and skills through the use of interdisciplinary and real-life based scenarios. Project WET activities are designed to supplement existing curriculum - including EEI (**Education & the Environment Initiative**) curriculum units - provide strong foundations for STEAM and Service-Learning programs and are *correlated to Common Core and Next Generation Science Standards*.

Project WET activities have been created by teachers for teachers. Each activity incorporates nationally recognized education principles and practices, step-by-step instructions and the use of low cost materials to promote the awareness, appreciation, and knowledge of water resources in a manner that is fun, hands-on and informational for learners of all ages.

Each participant will receive: *an introduction to current climate science and applications to California from the DWR Climate team; copy of the Project WET Guide 2.0 and first-hand experience engaged in Project WET activities, breakfast snacks and coffee and a \$50 stipend following completion of the training.*
Please bring your lunch!

**Tulare County
Office of Education**
Jim Vidak, County Superintendent of Schools

Friday, November 4, 2016 (8:00 am to 4:00 pm)
Tulare County Office of Education
7000 Doe Avenue,
Visalia, CA 93291

To reserve your spot, please e- mail the information below to Brian Brown, California Project WET Coordinator at projectwet@watereducation.org or 1401 21st Street, Suite 200, Sacramento, CA 95811 - or please feel free to call if you have questions: (916) 444-6240
